

I would like to express to the FCC how K-Love (FM 89.9) serves me as a resident of my community. I listen almost exclusively to K-Love radio station, approx 3 hrs a day. I believe that if the programming was changed to an LPFM broadcaster, our community would be greatly affected. We would lose a valuable local resource for positive Christian music, and news we can depend on. I believe K-Love is a fair and balanced station that provides truthful commentary, and a positive message to the local public. Please don't take away one of the few positive programmers we have in my community today. Thank You,
Sincerely, Robert Lincoln
